**INTELLECTUAL PROPERTY**  
A property which is created and developed from human intellect is called Intellectual Property. These properties can be in various forms which include books, artistic works, inventions.  
Intellectual Property Rights (IPR) helps an individual or an organization protect applications of commercial value and thereby  
IPR  
innovation and creativity by recognizing creators for their work. By establishing  
Not ownership and usage, IPR factors a  
ment for businesses and individuals to
